Engine would intermittently stumble on freeway especially on first drive of the day. My dealer diagnosed the problem as the low pressure fuel pump and replaced it. Engine consistently misses on cold (overnight) start for approximately a minute and then runs normal. My dealer diagnosed this as a defective fuel injector.

The results of the empirical investigation of Japan and Korea show that the user firms in both countries, represented by car makers, have involved themselves in the technical and entrepreneurial entry into machine tools along with making active investments. As a consequence, they made a considerable contribution to the innovation of machine tools, increasing their competitive advantage as well as the competence of their specialized suppliers.

In August 1914 the GWR was plunged into war, the like of which this country had never experienced before. Over the years that followed life changed beyond measure, both for the men sent away to fight and the women who took on new roles at home. Not since 1922 has the history of the GWR in the First World War been recorded in a single volume. Using modern data-bases and enjoying greater access to archives, Sandra Gittins has been able to produce a complete history which traces the GWR from the early, optimistic days through the subsequent difficult years of the Great War, including Government demands for war manufacture, increased traffic and the tragic loss of staff. From GWR ships and ambulance trains to the employment of women, every part of the story is told, including the saddest of all, which is represented by a Roll of Honour.
