programs, and settings. Each shares an approach he or she has used in a course, and introduces the syllabus for this course through personal reflections that give the reader a sense of the theories, prior experiences, and influential authors that have shaped their own thoughts and approaches. In addition to describing the nature of their students and the program in which the course is taught, many authors also share key issues with which they have grappled over the years while teaching their course; others discuss considerations that were relevant during the preparation of this particular syllabus or describe how it evolved in light of student input. The book is organized by areas within literacy education: reading; English/language arts; literature; emergent literacy; content-area literacy; literacy assessment and instruction; literacy and technology; and inquiries into literacy, theory, and classroom practice. It is accompanied by an interactive Web site: <http://msit.gsu.edu/handbook>. This online resource provides additional information about the authors' courses including complete syllabi, recommended readings, grading rubrics, and sample assignments. Readers are invited to respond and contribute their own syllabi and teaching experiences to the discourse generated by the volume.
