iPod touch - Official Apple Support

The Apple Store is located in Westfield Southcenter Mall, at 801 Southcenter Mall in Tukwila, WA. Traveling on I-5, take exit 154; traveling on I-405, take exit 1. The Apple Store is on level 1, east of Macy's. Closest parking for the Apple Store is on the north side of the mall, between Macy's and Seafood City Marketplace.

I was born and raised in Oakland, CA and attended Oakland Public Schools, K-12. Oakland life is a complex movie- full of depth and scenes that are high and low, ever evolving and impactful to all who witness the plot unfold again and again. For many of us, we live in Oakland but at the same time we are surviving Oakland. Our most powerful weapons are not guns or basketballs. No. Our most powerful weapon is our voice. Our leaping, twirling, voices of maniacal poise. A collective voice that over and over again rings undeniable and raw, truthful and compas-sionate. Reading through these pages I felt a sense of real pride and renewed hope. For these young people are a continuum of a great natural force in Oakland and an example to the peers who share common narratives around the world. —Ise Lyfe HBO DEF Poet Commissioner of Arts and Cultural Affairs for the City of Oakland, CA This book depicts the painful psalms of children in a Society gone astray. These are our children and they will construct the world of tomorrow. If that future world is not to our liking and alien to us, it is what we deserve unless we take action to change what is happening around us. This book "Write to Live" exposes us to what some children endure as a 'rite of life.' —Guy Johnson, author of Standing at the Scratch Line and Echoes of a Distant Summer

Beyond the undergraduate and graduate levels, education has traditionally ceased when students enter the workforce as professionals in their respective fields. However, recent trends in education have found that adult students beyond the traditional university age often benefit greatly from returning to further their education. Adult and Continuing Education: Concepts, Methodologies, Tools, and Applications investigates some of the most promising trends in furthering education and professional development in a variety of settings and industries. With an extensive array of chapters on topics ranging from non-traditional students to online and distance education for adult learners, this multi-volume reference book will provide students, educators, and industry professionals with the tools necessary to make the most of their return to the classroom.

"This book focuses on human-computer interaction related to the innovation and research in the design, evaluation, and use of innovative handheld, mobile, and wearable technologies in order to broaden the overall body of knowledge regarding such issue"--Provided by publisher.

With iOS 5, Apple added more than 200 new features to the iPad 2, but there's still no printed guide to using all its amazing capabilities. That's where this full-color Missing Manual comes in. You'll learn how to stuff your iPad with media, organize your personal life, wirelessly stream content to and from your tablet, stay connected to friends, and much more. The important stuff you need to know: Build your media library. Fill your iPad with music, movies, TV shows, eBooks, eMagazines, photos, and more. Go wireless. Sync content between your computer and iPad—no wires needed. Get online. Connect through WiFi or Wi-Fi + 3G, and surf the Web using the iPad's new tabbed browser. Consolidate email. Read and send messages from any of your email accounts. Get social. Use built-in apps like iMessage, Twitter, and Ping to stay in touch. Store stuff in iCloud. Stash your content online for free, and sync up all your devices automatically. Interact with your iPad. Learn new finger moves and undocumented tips, tricks, and shortcuts.

Having the ability to measure and explore the geographic space that surrounds us provides endless opportunities for us to utilize and interact with the world. As a broad field of study, geospatial research has applications in a variety of fields including military science, environmental science, civil engineering, and space exploration. Geospatial Research: Concepts, Methodologies, Tools, and Applications is a multi-volume publication highlighting critical topics related to geospatial analysis, geographic information systems, and geospatial technologies. Exploring multidisciplinary applications of geographic information systems and technologies in addition to the latest trends and developments in the field, this publication is ideal for academic and government library inclusion, as well as for reference by data scientists, engineers, government agencies, researchers, and graduate-level students in GIS programs.
