Can there ever be a happy ending for star-crossed lovers Melodrama and Histionix, whose fathers are rival chieftains of the same village? The only hope is to call in Asterix, Obelix and Getafix to sort out the feud, the intriguing of the sinister traitor Codfix, and the military might of Rome. Watch out for some interesting new magic potions...

Drawing on real-life interviews, Brandt explores what happens when writing overtakes reading as the basis of people's daily literate experience.

CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

Recent sociopolitical events have profoundly changed the status and functions of German and influenced its usage. In this study (published by Cambridge in 1984) Michael Clyne revises and expands his original analysis of the German language in Language and Society in the German-speaking Countries in the light of such changes as the end of the Cold War, German unification, the redrawing of the map of Europe, increasing European integration, and the changing self-images of Austria, Switzerland and Luxembourg. His discussion includes the differences in the form, function and status of the various national varieties of German; the relation between standard and non-standard varieties; gender, generational and political variation; Anglo-American influence on German; and the convergence of east and west. The result is a wide-ranging exploration of language and society in the German-speaking countries, all of which have problems or dilemmas concerning nationhood or ethnicity which are language-related and/or language-marked.

Reveals the secrets, scandals and surprises behind the words used every day. This book includes the stories and the personalities that have helped shape the English language from William Shakespeare and Lord Byron, to Rudyard Kipling and Salmon Rushdie.
