“ A step-by-step approach to increasing your happiness, as well as your profitability and success in business . . . A very provocative concept. ” —Gerry Myers, author of Targeting the New Professional Woman Most businesses spend far too much of their time and energy struggling to get new customers or hang on to existing ones—even customers who are ultimately more trouble than they ’ re worth. Attracting Perfect Customers invites readers to move beyond the notions that “ business is war ” and winning market share means “ beating ” the other guy. The authors outline a simple strategic process for making businesses so highly attractive that perfect customers and clients are naturally drawn right to them. Sound too good to be true? Hall and Brogniez have successfully shown clients how to do it for years, and now they share their secrets. They prove that war-like marketing techniques seem antiquated and labor-intensive when compared to the Strategic Attraction Planning process, which requires just five minutes each day and enables any business to easily attract customers that are a perfect fit for their organization—the kind of customers it is a pleasure to serve. The authors reveal the six success standards of strategic synchronicity and share simple, fun, and easy-to-follow exercises that can be applied to any organization. They walk you through the process of creating your own personalized Strategic Attraction Plan and provide 21 supportive tips for making any company more attractive to its perfect customers. Attracting Perfect Customers will take you to a place where there is an abundance of perfect customers and clients with whom you can build strong, satisfying, profitable, and lasting relationships.

Attracting Perfect Customers leads readers through a transformation as they learn that it is no longer productive or profitable to conduct business using warlike marketing techniques such as “targeting” customers and “outmaneuvering” the competition. In fact, these techniques seem both outdated and labor-intensive when compared to the Strategic Synchronicity process, which requires just five minutes of planning each day. Strategic Synchronicity is based on nine principles that are not new but are often neglected in today's business world. Among them are the ideas that businesses don't need to search for customers if they are “on purpose”; that collaboration, not competition, is required; and that businesses create their own “clients from hell”.

_____ (From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.
