There is general agreement that in the distant past Oriya, Assamese, and Bengali formed a single branch, from which Oriya split off first and Assamese later. This is one reason that the earliest specimens of Bengali language and literature, the Charyapadas ( Buddhist mystic songs), are also claimed by speakers of Oriya and Assamese as their own. The Bengali linguists Suniti Kumar Chatterji and Sukumar Sen suggested that Bengali had its origin in the 10th century ce, deriving from Magahi ...

Criticism of Bengali literature of the late 19th and early 20th centuries; a study.

An original and compelling account of the Hindu partitionist movement in Bengal.

This book challenges the prevalent assumptions of caste, hierarchy and social mobility in pre-colonial and colonial Bengal. It studies the writings of colonial ethnographers, Orientalist scholars, Christian missionaries and pre-colonial literary texts like the Mangalkavyas to show how the concept of caste emerged and argues that the jati order in Bengal was far from being a rigidly reified structure, but one which had room for spatial and social mobility. The volume highlights the processes through which popular myths and beliefs of the lower caste orders of Bengal were Sanskritized. It delineates the linkages between sedantized peasant culture and the emergence of new agricultural castes in colonial Bengal. Moreover, the author discusses a wide spectrum of issues like marginality and hierarchy, the spread of Brahmanical hegemony, the creation of deities and the process of Sanskritization, popular Saivism, the cult of Manasa in Bengal and the revolt of 1857 and the caste question. Rich in archival sources, this book will be an essential read for scholars and researchers of colonial history, Indian history, political sociology, caste studies, exclusion studies, cultural studies, social history, cultural history and South Asian studies, especially those interested in undivided Bengal.

The first part of the book is concerned mainly with trade and commerce in Bengal while subsequent chapters provide an extensive survey of maritime trade in the Indian Ocean and the unique contribution of Armenian communities in Dhaka's commercial and social life of the eighteenth century.
