The Thirteenth Edition of this very popular casebook provides a framework for studying the essential and cutting-edge issues of civil procedure in an accessible but rigorous way. The authors of the prior editions, Jack H. Friedenthal, Arthur R. Miller, John E. Sexton, and Helen Hershkoff, welcome two new authors to their team, Adam N. Steinman and Troy A. McKenzie. The new edition reflects the uniqueness, talents, and special expertise of these new authors, who individually and together bring tremendous new experiences and backgrounds to an author-team already known for its excellence and distinction. Adam N. Steinman, the University Research Professor of Law at the University of Alabama School of Law, is an award-winning teacher and scholar whose work has been cited in hundreds of articles and dozens of judicial opinions. He is an author on the Wright & Miller Federal and Practice & Procedure treatise and an elected member of the American Law Institute. He is also the co-organizer of the Unavailability Workshop for Civil Procedure and the co-editor of the Law Professor Blogs Network's Civil Procedure & Federal Courts Blog. Prior to joining the University of Alabama faculty, he was a Professor of Law at Seton Hall University and the University of Cincinnati. His practice experience includes both complex civil litigation and public-interest appellate work. Troy A. McKenzie, Professor of Law at New York University School of Law, is an award-winning teacher and scholar who has taken an active role in the procedural rulemaking process. He is a member of the Council of the American Law Institute and has been appointed to the Committee on Rules of Practice and Procedure of the Judicial Conference of the United States. At NYU, he co-directs the Center on Civil Justice and the Institute of Judicial Administration. Among his practice and public service experiences, he served for two years as Deputy Assistant Attorney General in the Office of Legal Counsel at the U.S. Department of Justice. The Thirteenth Edition, like the predecessor editions upon which it is based, is designed to reinforce doctrinal understanding, to foster case reading skills, to encourage critical thinking about the real-world context of procedural decisions, to motivate discussion about diversity, inclusion, and equity and the role of courts and civil procedure in promoting those values, and to help develop a sense of litigation strategy in a world that is at once local and global. The casebook covers all of the major topics that a professor might wish to teach in a first-year course, and can easily be adapted for courses of one or two semesters, of different credit hours, and with varied practical or theoretical emphases. The casebook can be used for in-class and remote instruction.
