Each year Consumer Reports analyzes 50 new cars on its test track for performance and safety (including industry crash test stats), and the team looks at data from its auto survey to provide consumers' reviews of the top cars on the market. In choosing its "top picks," CR looks for vehicles that set industry standards.

Consumers Union, the publisher of Consumer Reports, has been an influential and defining force in American society since 1936. The organization's mission has remained essentially unchanged: to work for a fair, just, and safe marketplace for all consumers. The Consumers Union National Testing and Research Center in Yonkers, New York, is the largest nonprofit educational and consumer product testing center in the world. In addition to its testing facility in Yonkers and a state-of-the-art auto test center in Connecticut, the organization maintains advocacy offices in San Francisco, Austin, and Washington, D.C., where staff members work on national campaigns to inform and protect consumers. In addition to its flagship publication, Consumer Reports, Consumers Union also maintains several Web sites, including www.ConsumerReports.org and www.ConsumerUnion.org, and publishes two newsletters--Consumer Reports on Health and Consumer Reports Money Adviser--as well as many special publications.

Features recommendations and ratings on hundreds of small, medium, and large-sized cars based on quality, economy, performance, and comfort standards, with judgments on crash protection, and assessments of available options

Completely redesigned for 1996, to make it easier to find all the information on the cars on any reader's shopping list, Used Car Buying Guide now presents all models in alphabetical order. This annual bestseller steers consumers to the makes and models most likely to provide reliable and practical transportation, thus minimizing the chance of making a costly mistake. Photos. Charts.

Based on tests conducted by Consumers Union, this guide rates new cars based on performance, handling, comfort, convenience, reliability, and fuel economy, and includes advice on options and safety statistics.

Test reports, profiles, and advice on nearly 200 new cars, sport-utility vehicles, minivans, and pickups are provided by America's #1 consumer product-testing center. 240 photos and charts.

Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car-and-truck book on the market. "Dr. Phil." along with George Iny and the Editors of the Automobile Protection Association, pull no punches.

Gives advice on every aspect of purchasing a car, including determining budget limits; buying new, used, or foreign cars; negotiating a deal; and making financing arrangements.

A step-by-step guide to getting the right car at the best price explores a wide range of available financing options, discussing the buy versus lease alternative, the ins and outs of vehicle pricing, the negotiation process and dealership experience, trade-in prices, and other helpful strategies, advice, and facts. Original. 25,000 first printing.

The light-duty vehicle fleet is expected to undergo substantial technological changes over the next several decades. New powertrain designs, alternative fuels, advanced materials and significant changes to the vehicle body are being driven by increasingly stringent fuel economy and greenhouse gas emission standards. By the end of the next decade, cars and light-duty trucks will be more fuel efficient, weigh less, emit less air pollutants, have more safety features, and will be more expensive to purchase relative to current vehicles. Though the gasoline-powered spark ignition engine will continue to be the dominant powertrain configuration even through 2030, such vehicles will be equipped with advanced technologies, materials, electronics and controls, and aerodynamics. And by 2030, the deployment of alternative methods to propel and fuel vehicles and alternative modes of transportation, including autonomous vehicles, will be well underway. What are these new technologies - how will they work, and will some technologies be more effective than others? Written to inform The United States Department of Transportation's National Highway Traffic Safety Administration (NHTSA) and Environmental Protection Agency (EPA) Corporate Average Fuel Economy (CAFE) and greenhouse gas (GHG) emission standards, this new report from the National Research Council is a technical evaluation of costs, benefits, and implementation issues of fuel reduction technologies for next-generation light-duty vehicles. Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles estimates the cost, potential efficiency improvements, and barriers to commercial deployment of technologies that might be employed from 2020 to 2030. This report describes these promising technologies and makes recommendations for their inclusion on the list of technologies applicable for the 2017-2025 CAFE standards.
