A Guardian ["Best Book of 2021"](#) Selection A powerful look at the impacts of anti-Black racism and a practical guide for overcoming racial trauma through radical self-care as a form of resistance Over the past 15 years, radical psychologist Guilaïne Kinouani has focused her research, writing, and workshops on how racism affects both physical and mental health. Living While Black gives voice to the diverse, global experiences of Black people, using personal stories, powerful case studies, and eye-opening research to offer expert guidance on how to set boundaries and process micro-aggressions; protect children from racism; handle difficult race-based conversations; navigate the complexities of Black love; and identify and celebrate the wins. Based on her findings, Kinouani has devised tried-and-tested strategies to help protect Black people from the harmful effects of verbal, physical, and structural racism. She empowers Black readers to adopt self-care mechanisms to improve their day-to-day wellness to help them thrive, not just survive, and to find hope and beauty—or even joy!in the face of racial adversity. She also provides a vital resource for allies seeking to better understand the impacts of racism and how they can help. With the rise of far-right ideologies and the increase of racist hate crimes, Living While Black is both timely and instrumental in moving conversations from defining racism for non-Black majorities to focusing on healing and nurturing the mental health of those facing prejudice, discrimination, and the lasting effects of the violence of white supremacy.

'One of Britain's outstanding poets' Sir Paul McCartney 'Riveting' Observer 'An exuberant account of a remarkable life' New Statesman This is a memoir as wry, funny, moving and vivid as its inimitable subject himself. This book will be a joy for both lifelong fans and for a whole new generation. John Cooper Clarke is a phenomenon: Poet Laureate of Punk, rock star, fashion icon, TV and radio presenter, social and cultural commentator. At 5 feet 11 inches (32in chest, 27in waist), in trademark dark suit, dark glasses, with dark messed-up hair and a mouth full of gold teeth, he is instantly recognizable. As a writer his voice is equally unmistakable and his own brand of slightly sick humour is never far from the surface. I Wanna Be Yours covers an extraordinary life, filled with remarkable personalities: from Nico to Chuck Berry, from Bernard Manning to Linton Kwesi Johnson, Elvis Costello to Gregory Corso, Gil Scott Heron, Mark E. Smith and Joe Strummer, and on to more recent fans and collaborators Alex Turner, Plan B and Guy Garvey. Interspersed with stories of his rock and roll and performing career, John also reveals his boggling encyclopaedic take on popular culture over the centuries: from Baudelaire and Edgar Allan Poe to Pop Art, pop music, the movies, fashion, football and showbusiness – and much, much more, plus a few laughs along the way.

This book contains papers in the fields of Interactive, Collaborative, and Blended Learning; Technology-Supported Learning; Education 4.0; Pedagogical and Psychological Issues. With growing calls for affordable and quality education worldwide, we are currently witnessing a significant transformation in the development of post-secondary education and pedagogical practices. Higher education is undergoing innovative transformations to respond to our urgent needs. The change is hastened by the global pandemic that is currently underway. The 9th International Conference on Interactive, Collaborative, and Blended Learning: Visions and Concepts for Education 4.0 was conducted in an online format at McMaster University, Canada, from 14th to 15th October 2020, to deliberate and share the innovations and strategies. This conference's main objectives were to discuss guidelines and new concepts for engineering education in higher education institutions, including emerging technologies in learning; to debate new conference format in worldwide pandemic and post-pandemic conditions; and to discuss new technology-based tools and resources that drive the education in non-traditional ways such as Education 4.0. Since its beginning in 2007, this conference is devoted to new learning approaches with a focus on applications and experiences in the fields of interactive, collaborative, and blended learning and related new technologies. Currently, the ICBL conferences are forums to exchange recent trends, research findings, and disseminate practical experiences in collaborative and blended learning, and engineering pedagogy. The conference bridges the gap between [pure] scientific research and the everyday work of educators. Interested readership includes policymakers, academics, educators, researchers in pedagogy and learning theory, school teachers, industry-centric educators, continuing education practitioners, etc.

A thrilling account of how Russia is waging a hidden war against America and the West, using espionage, corruption, fake news, and KGB-style murder March 2018. Two Russian assassins arrive in a provincial English city to kill a former officer from Russia's GRU intelligence agency. His crime? Passing secrets to British spies. The poison? A lethal nerve agent, novichok. The attempted execution was a reminder – as if one were needed – of Russia's contempt for international norms. The Soviet Union and its doctrine are long gone, but the playbook used by the Kremlin's spies during that long confrontation with the West is back. And the underlying goal remains the same: to undermine democracy and exploit divisions within American and European society and politics. Moscow's support for Donald Trump in the 2016 presidential election has grown into the biggest political scandal of modern times. Its American players are well-known. In Shadow State, award-winning journalist and bestselling author Luke Harding reveals the Russians behind the story: the spies, hackers and internet trolls. Harding charts how the Kremlin has updated Communist-era methods of influence and propaganda for the age of Facebook and Twitter, and considers the compelling question of our age: what exactly does Vladimir Putin have on President Trump? Similar to those of the Cold War, Putin's ambitions are truly global. His emissaries include oligarchs, bankers, lawyers, mercenaries, and agents of influence. They roam from Salisbury to Helsinki, Ukraine to Central Africa, London to Washington, D.C. Shadow State is the singular account of how the Kremlin seeks to reshape the world, to divide the US from its European friends, and to remake America in its own dark and kleptocratic image. This is an essential read for anyone who wants to understand how our politics came to be so chaotic and divided. Nothing less than the future of Western democracy is at stake.
