Framing (or shot length): extreme long shot (usually an establishing shot, from as much as a quarter mile away), long shot (this is a "life size" shot that corresponds with the distance between audience and screen in a cinema; it focuses on the characters and the background images), medium shot (this is usually used for dialogue scenes or a ...

This international best-seller is filled with visual techniques for filmmakers and screenwriters who want to expand their stylistic knowledge.

Shot by Shot is the world's go-to directing book, now newly updated for a special 25th Anniversary edition! The first edition sold over 250,000 copies, making it one of the bestselling books on film di-recting of all time. Aspiring directors, cinematographers, editors, and producers, many of whom are now working professionals, learned the craft of visual storytelling from Shot by Shot, the most com-plete source for preplanning the look of a movie. The book contains over 800 photos and illustrations, and is by far the most comprehensive look at shot design in print, containing storyboards from movies such as Citizen Kane, Blade Runner, Dead-pool, and Moonrise Kingdom. Also introduced is the concept of A, I, and L patterns as a way to sim-ply the hundreds of staging choices facing a director in every scene. Shot by Shot uniquely blends story analysis with compositional strategies, citing examples then il-lustrated with the storyboards used for the actual films. Throughout the book, various visual ap-proaches to short scenes are shown, exposing the directing processes of our most celebrated au-teurs -- including a meticulous, lavishly illustrated analysis of Steven Spielberg's scene design for Empire of the Sun.

"Cinematic Motion has helped directors create a personal camera style and master complex staging challenges for over a decade. In response to the opportunities offered by digital technology, this second edition adds essential chapters on digital visualization and script breakdown."--Jacket.

Directing: Film Techniques and Aesthetics is a comprehensive manual that teaches the essentials of filmmaking from the perspective of the director. Ideal for film production and directing classes, as well as for aspiring and current directors, Directing covers all phases of preproduction and production, from idea development to final cut. Thoroughly covering the basics, Directing guides the reader to professional standards of expression and control, and goes to the heart of what makes a director. The book outlines a great deal of practical work to meet this goal, with projects, exercises. The third edition emphasizes the connection between knowing and doing, with every principle realizable through projects and exercises. Much has been enhanced and expanded, notably: aspects of dramaturgy; beats and dramatic units; pitching stories and selling one's work; the role of the entrepreneurial producer; and the dangers of embedded moral values. Checklists are loaded with practical recommendations for action, and outcomes assessment tables help the reader honestly gauge his or her progress. Entirely new chapters present: preproduction procedures; production design; script breakdown; procedures and etiquette on the set; shooting location sound; continuity; and working with a composer. The entire book is revised to capitalize on the advantages offered by the revolutionary shift to digital filmmaking.

Current and aspiring film directors can make their job easier by studying the 10 directing fundamentals outlined in detail in this book. The first five chapters are practical in nature: a successful director must first have a screenplay, a cast, a crew, a budget, and good health. The final five address the psychology of directing, including the development of craft, command, pace, luck, and " chutzpah, " which the author defines as " boldness coupled with extreme self-confidence. " Instructors considering this book for use in a course may request an examination copy here.

FILM PRODUCTION TECHNIQUE (FPT): CREATING THE ACCOMPLISHED IMAGE, 6e, is aimed at the basic production course taken by radio/tv/film majors. FPT, 6e, delivers a technical and aesthetic introduction to media production that couples video production techniques with strong emphasis on incorporating motion picture film into a project's workflow. The text serves as a primer for all students, but is especially valuable to those students with limited background in the field of media production. FPT, 6e explores cutting-edge technologies as well as traditional Hollywood techniques, covering lighting, cameras, editing, crew organization, and the production process. It also lays out the basic, conventional approach to scene structure in a straightforward and methodical manner. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
