health plans. Important coverage of diagnostic coding, procedural coding, office and insurance collection strategies, Medicare, Managed Care, and more is presented. Additionally, a free CD-ROM featuring the HCFA-1500 claim form is included with the book. The CD-ROM contains 10 scored patient case studies with related insurance information so that the student can practice completing the HCFA-1500 claim form in a fun, interactive format. This edition of the Fordney text is full colour (and is the first text in this discipline to use this format). This full-color format will help the students identify each insurance payer with a specific color and icon, thus making the learning process more effective. The text has been updated to reflect recent changes in procedural coding for government programs and the private sector. Also in this edition, the text has been completely rewritten by the author to emphasize procedural (CPT and HCPCS) and diagnostic (ICD-9-CM) coding and documentation which are the keystones to obtaining maximum reimbursement.
