Jean Renoir's 1937 film La Grande Illusion is set during the First World War, but its themes of Franco-German conflict, divided loyalties in a time of war and the rise of anti-Semitism made it compelling and controversial viewing. Julian Jackson traces the film's historical context and its reception history.

This is an extended analysis of the film, from different perspectives. The first half is largely a discussion of the cinematic technique, with key sequences analyzed shot by shot. The second half approaches the film from many other angles, including its history, the critical reception, Renoir's life and career, and film theory, e.g., film in relation to music. A case is made that Renoir's career was inconsistent, especially after "La Regle du jeu"--though also at times during the 1930s, melodramatic plots and trite cinematic technique dominate many of his films. And, rather than emphasizing the humanist, anti-war thrust of "La Grande Illusion," the film is approached as a work of art that is deeply expressive cinematically.

This is an extended analysis of the film, from different perspectives. The first half is largely a discussion of the cinematic technique, with key sequences analyzed shot by shot. A case is made that Renoir ' s career was inconsistent, especially after La R é gle du jeu but also during the 1930s. And rather than emphasizing the humanist, anti-war thrust of La Grande Illusion, the film is approached as a work of art that is deeply expressive cinematically.

Directed by the great Jean Renoir, "La Grande Illusion" (1937) is the finest of all anti-war films and a cinematic masterpiece. Other films oppose war by showing its horror. Renoir's film holds the horror at arm's length to give us a clearer view of it. A prisoner-of-war drama, with brilliant performances from leading stars of its period, including Erich von Stroheim and Jean Gabin, the film combines popular appeal with a formal brilliance that allows a complex examination of how classes, nations and genders interact. In this comprehensive and readable companion to the film, Martin O'Shaughnessy underlines its sharp intelligence. He shows how, not content to register the world as it is, the film plays off competing historical possibilities against each other, facing the public with their responsibility to shape the future. Locating the film in the context of Renoir's career, O'Shaughnessy discusses its use of stars, production history, set design and reception. He compares known drafts of the film with a previously undiscovered story outline, casting important new light on its genesis. Stressing how it spoke to its times, he also demonstrates how it speaks to us now.

Franco-German cultural exchange reached its height at the 1937 Paris World ' s Fair, where the Third Reich worked to promote an illusion of friendship between the two countries. Through the prism of this decisive event, Grand Illusion examines the overlooked relationships among Nazi elites and French intellectuals. Their interaction, Karen Fiss argues, profoundly influenced cultural production and normalized aspects of fascist ideology in 1930s France, laying the groundwork for the country ' s eventual collaboration with its German occupiers. Tracing related developments across fine arts, film, architecture, and mass pageantry, Fiss illuminates the role of National Socialist propaganda in the French decision to ignore Hitler ' s war preparations and pursue an untenable policy of appeasement. France ' s receptiveness toward Nazi culture, Fiss contends, was rooted in its troubled identity and deep-seated insecurities. With their government in crisis, French intellectuals from both the left and the right demanded a new national culture that could rival those of the totalitarian states. By examining how this cultural exchange shifted toward political collaboration, Grand Illusion casts new light on the power of art to influence history.

Featuring insights ... analysis ... great films and filmmakers from ‘ the most-sought-after screenwriting teacher in the world ’ (The Hollywood Reporter). A life in film. An extraordinary career. An unforgettable story —from noted lecturer, teacher, and bestselling author Syd Field. What makes a great movie great? ... An actor legendary? ... A screenplay extraordinary or just ordinary?
