Marxism is a method of socioeconomic analysis that uses a materialist interpretation of historical development, better known as historical materialism, to understand class relations and social conflict as well as a dialectical perspective to view social transformation. It originates from the works of 19th-century German philosophers Karl Marx and Friedrich Engels.

Marxism - Wikipedia

Hirschel Marx was a lawyer and to escape anti-Semitism decided to abandon his Jewish faith when Karl was a child. Although the majority of people living in Trier were Catholics, Marx decided to become a Protestant. He also changed his name from

twentieth century. Written by an author of great repute.

First published in 1978, this book rapidly established itself as a classic of modern Marxism. Cohen's masterful application of advanced philosophical techniques in an uncompromising defense of historical materialism commanded widespread admiration. In the ensuing twenty years, the book has served as a flagship of a powerful intellectual movement--analytical Marxism. In this expanded edition, Cohen offers his own account of the history, and the further promise, of analytical Marxism. He also expresses reservations about traditional historical materialism, in the light of which he reconstructs the theory, and he studies the implications for historical materialism of the demise of the Soviet

Includes the complete Communist Manifesto and substantial extracts from On the Jewish Question, the German Ideology, Grundrisse, and Capital, a broad representation of his letters, and lesser-known works, especially his long-unavailable, early works.

Karl Marx (1818-1883) is arguably the most famous political philosopher of all time, but he was also one of the great foreign correspondents of the nineteenth century. During his eleven years writing for the New York Tribune (their collaboration began in 1852), Marx tackled an abundance of topics, from issues of class and the state to world affairs. Particularly moving pieces highlight social inequality and

date translations by award-winning translators.

By reconstructing a materialist conception of nature and society, Marx's Ecology challenges the spiritualism prevalent in the modern Green movement, pointing toward a method that offers more lasting sustainable solutions to the ecological crisis.

For anyone wishing to understand the modern world, Marx's Capital is indispensable. It is also, unfortunately, a difficult book to read. Some of these difficulties are inevitable since the ideas are unfamiliar and complex, but it seems more forbidding than it really is and the reader who persists will find it worth the effort. The Guide is intended to be read in conjunction with

Capital (though it can be read on its own). It goes through Marx's masterpiece, chapter by chapter, setting each in the context of the whole and picking out the main threads of the argument. Each of Marx's technical terms is explained when it is first used and is also defined in the glossary for easy reference. The introduction outlines the development of Marx's thought and relates it to the philosophical, political and economic ideas of his time. The Guide does not take sides for Marx or against him. Its aim is to contribute to a better understanding of his work.

"A lucid, free-flowing summary of the ideas of Marx as well as keen analysis of the different interpretations of Marxism."--Library Journal Here is an introduction to all of Karl Marx's titanic
