New developments covered in this book include: Emotionally Focused Therapy The Gottman approach to couples therapy Mindfulness and psychotherapy The common factors approach to psychotherapy and to family therapy The increased emphasis on empirically supported treatments High-conflict post-divorce parenting *Basic Family Therapy* will be of value to readers new to family therapy and to those in the early stages of training.

strongly impact individuals and families. Authors address the treatment of couples and families oppressed by socio-contextual phenomena such as war and poverty, and of those marginalized by the insidious impact of dominant discourse on relationships and on the therapeutic context, for example, sexual/gender identity and sexual practices. Established practitioners and scholars with particular expertise in the areas addressed bring exceptional transparency and knowledge to the descriptions of their work. Researchers, clinicians, educators, and students of family and couples therapy will find this volume very useful.

This comprehensive second edition inspires therapists to utilize clinical work to pragmatically address intersectional oppressions, lessen the burden of minority stress, and implement effective LGBTQ affirmative therapy. A unique and important contribution to LGBTQ literature, this handbook includes both new and updated chapters reflecting cutting-edge intersectional themes like race, ethnicity, polyamory, and monosexual normativity. A host of expert contributors outline the best practices in affirmative therapy, inspiring therapists to guide LGBTQ clients into deconstructing the heteronormative power imbalances that undermine LGBTQ relationships and families. There is also an increased focus on clinical application, with fresh vignettes included throughout to highlight effective treatment strategies. Couple and family therapists and clinicians working with LGBTQ clients, and those interested in implementing affirmative therapy in their practice, will find this updated handbook essential.
