This volume was conceived to serve a variety of reader categories. It should meet the needs of teachers and students engaged in the study of Pakistan; it is hoped that it will offer area specialists an enlarged perspective from which to examine their own findings; and it ought to prove useful to the general reader who wishes to keep abreast of the forces and events shaping our time. Every effort has been made to define the essential themes, to provide the pertinent data, to analyze the significant events thoroughly, and to present the material in a lucid, fast-moving manner. Overall the book should be both informative and provocative. Given my long association with Pakistan, the many

Development  
years spent investigating and experiencing its development, the unique opportunities I have enjoyed for personal contact with the country's passing leadership as well as its diverse population, I have taken liberties which less-involved scholars would no doubt avoid. I make no apologies for this somewhat personalized approach, or for the pointed comments that will be found throughout the volume. The Pakistan story does not lend itself to sterile description. It is an exciting and important chronicle and it ought to be presented in a fashion that stimulates debate in addition to making available the necessary facts. I trust I have succeeded in fulfilling both objectives

Winner of the 2021 Overseas Press Club of America Cornelius Ryan Award The former New York Times Pakistan bureau chief paints an arresting, up-close portrait of a fractured country. Declan Walsh is

Development

one of the New York Times's most distinguished international correspondents. His electrifying portrait of Pakistan over a tumultuous decade captures the sweep of this strange, wondrous, and benighted country through the dramatic lives of nine fascinating individuals. On assignment as the country careened between crises, Walsh traveled from the raucous port of Karachi to the salons of Lahore, and from Baluchistan to the mountains of Waziristan. He met a diverse cast of extraordinary Pakistanis—a chieftain readying for war at his desert fort, a retired spy skulking through the borderlands, and a crusading lawyer risking death for her beliefs, among others. Through these "nine lives" he describes a country on the brink—a place of creeping extremism and political chaos, but also personal bravery and dogged idealism that defy easy stereotypes. Unbeknownst to Walsh,

Development  
however, an intelligence agent was tracking him. Written in the aftermath of Walsh's abrupt deportation, *The Nine Lives of Pakistan* concludes with an astonishing encounter with that agent, and his revelations about Pakistan's powerful security state. Intimate and complex, attuned to the centrifugal forces of history, identity, and faith, *The Nine Lives of Pakistan* offers an unflinching account of life in a precarious, vital country.

The lead commissioner of the UN investigation into the assassination of former Pakistani prime minister Benazir Bhutto recounts his year-long investigation into this tragic event that forever changed U.S.-Pakistani relations.

Understanding the treacherous currents of Pakistani politics

## Get Free Pakistan The Enigma Of Political Development

This controversial book explores one nation's journey from the margins of history to the centre of the world stage. Tracing the development of the country from its birth in 1947 to the present day, Ziring explores how a country once envisaged as a secular model for the Muslim world has been gripped by a form of radical Islamic fundamentalism. Focusing on the links between what is going on within Pakistan and its relationships with key foreign powers such as the US, this unique account portrays an unstable nation locked in a myriad of struggles.

In a probing biography of her native land, Ayesha Jalal provides a unique insider's assessment of how the nuclear-armed Muslim nation of Pakistan evolved into a country besieged by military domination and militant religious extremism, and
