The Best 250+ General Trivia Questions with Answers Fancy yourself a trivia quiz buff? or maybe you are looking to create your own interactive quiz . Well, we've got 250+ trivia questions and answers lined up for you to try to figure out and they span many different categories.

This book introduces law in the context of international business. The basics of law are explored using a clear comparative methodology. International and regional economic institutions are discussed, next to the fundamentals of private law. These include contract law, liability law, labour law, company law, privacy law, intellectual property law and international private law. The book goes beyond the usual focus on Western legal systems and uses examples from all over the world to provide students with comprehensive knowledge of business law. It is set up rather broadly, so that it can be used by teachers throughout their entire curriculum. Each chapter ends with a clear summary, and practice questions. Due to its colourful cases, this book is accessible and fun to read.

Riddles are a journey into a fascinating world rich in delightful metaphors and ambiguity. This book is based on material drawn from all over the world and analyses both traditional true riddles and contemporary joking questions. It introduces the reader to different riddling situations and the many functions of riddles, which vary from education to teasing, and from defusing a heated situation to entertainment. In addition to providing a survey of international riddle scholarship, the book has a comprehensive bibliography with suggestions for further reading.

This book collects eighteen previously unpublished essays on the riddle--a genre of discourse found in virtually every human culture. Hasan-Rokem and Shulman have drawn these essays from a variety of cultural perspectives and disciplines; linguists, anthropologists, folklorists, and religion and literature scholars consider riddling practices in Hebrew, Finnish, Indian languages, Chinese, and classical Greek. The authors seek to understand the peculiar expressive power of the riddle, and the cultural logic of its particular uses; they scrutinize the riddle's logical structure and linguistic strategies, as well as its affinity to neighboring genres such as enigmas, puzzles, oracular prophecy, proverbs, and dreams. In this way, they begin to answer how riddles relate to the conceptual structures of a particular culture, and how they come to represent a culture's cosmology or cognitive map of the world. More importantly, these essays reveal the human need for symbolic ordering--riddles being one such form of cultural ritual.

The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

Rhetoric gives our words the power to inspire. But it's not just for politicians: it's all around us, whether you're buttering up a key client or persuading your children to eat their greens. You have been using rhetoric yourself, all your life. After all, you know what a rhetorical question is, don't you? In this updated edition of his classic guide, Sam Leith traces the art of argument from ancient Greece down to its many modern mutations. He introduces verbal villains from Hitler to Donald Trump - and the three musketeers: ethos, pathos and logos. He explains how rhetoric works in speeches from Cicero to Richard Nixon, and pays tribute to the rhetorical brilliance of AC/DC's "Back In Black". Before you know it, you'll be confident in chiasmus and proud of your panegyrics - because rhetoric is useful, relevant and absolutely nothing to be afraid of.

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiela, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiela to reclaim him. But, powerless against authority, Fiela never comes. Benjamin has to grow up before he can go in search of the truth ...
