The philosophy of history is an area of interest not only to philosophers, but to historians and to social scientists. It has been of central importance in continental European philosophy since the late 18th century, and for the past half-century has had a significant place in Anglo-American philosophy. Interest in the philosophy of history continues to grow. This volume offers both an introduction to contemporary discussion in the philosophy of history, and a 'reassessment' of some of the major movements in the philosophy of history since the beginning of the 20th century. Including the work of leading international scholars in the field, the book presents a wide range of perspectives from different schools in philosophy, and in political and social theory, history, and the history of ideas. Traditional questions raised in the philosophy of history are explored with fresh

insight - the nature of history; historical understanding; historical objectivity; the nature of the past; the psychological factors in historical explanation; the human significance of history - alongside issues which are less frequently examined including: the role of science and mathematics in history, history as a social science, and history as an art form. As history itself remains disputed ground, it is important to consider what clues history can provide for our response to issues of contemporary concern such as political realignments and economic globalisation; this volume offers important insights from leading scholars in the philosophy of history.

This is the first complete translation in over 150 years of what many consider to be Hegel's most accessible work. The Lectures on the Philosophy of History are a tour-de-force, an audacious attempt to

summarize world history and the purpose behind it. Was Hegel the progenitor of the power-state that unified Germany became? The Lectures, the mature fruit of Hegel's thought, provide many relevant clues. Hegel saw the growth of freedom as the purpose behind history, but he also argued that such freedom could not take root and flourish apart from a state able to impose and enforce the rule of law.

Based directly on the standard German edition by Johannes Hoffmeister, this translation presents Hegel's vision of history in a lucid, accessible form that captures the nuances of his thought.

G. W. F. Hegel (1770 – 1831), the influential German philosopher, believed that human history was advancing spiritually and morally according to God's purpose. At the beginning of this masterwork, Hegel writes: “ What the history of Philosophy shows us is a succession of noble minds, a gallery of heroes of thought, who, by the power of Reason, have penetrated into the being of things, of nature and of spirit, into the Being of God, and have won for us by their labours the highest treasure, the treasure of reasoned knowledge. ” In his introduction to this Bison Book edition, Frederick C. Beiser notes
