trailerable sailboat is the ideal way to explore the country ? wherever there is water. To make the most of this exciting lifestyle, owners of trailerable sailboats need three things ? an understanding of the boat and how to use it; knowledge about the tow vehicle and trailer used to transport the boat; and a spirited sense of adventure to live the dream. #13;#13; This book will help you get started. #13;#13; #13;

Kidnapped when she was a child, Susan Smith was forced into a life of prostitution as a teenager. For years, she endures unspeakable acts, eventually coming to believe that the only way out is through taking her own life. But God has another plan for her. Phil Johnson lived a charmed life. He married his childhood sweetheart Beth and had two rambunctious, loving boys. While on vacation in California, Phil accidentally recorded two lawmen committing a crime, and suddenly his family becomes a target. A terrible car crash claims the lives of Phil's wife and children, and he barely survives. Phil, overcome with grief and fear, walks and runs until he finds a hotel in the middle of the night. When Susan and Phil meet at the hotel, Susan agrees to help him. Phil knows that the only way justice will be done is to recover the camcorder and take a DVD to the FBI. The two embark on a journey full of danger, one that tests the limits of faith and friendship. Susan discovers the awesome power of God's grace, while Phil realizes healing from his loss can only come through God's love. But Phil and Susan soon learn that the past cannot be forgotten so easily.

Features lists that cover a broad range of subjects including bizarre births, weird jobs, crazy diets, strange phobias, historical oddities, religious scandals, ridiculous criminal acts, and weird superstitions.

From award-winning TV comedy writer Kari Lizer (*The New Adventures of Old Christine*) comes a collection of hilarious essays about the challenges of being a woman of a certain age and all that comes with it: empty nest, post #MeToo dating, aging parents, menopausal rage, unrealistic expectations, and eternal optimism. What does it feel like to have your kids leave the house at the same time your parents might need to move in? With self-deprecating humor, sharp wit, and Ephyra-esque aplomb, Kari Lizer gives an honest account of finding herself in the middle of growing up, growing old, and still figuring it all out. She finds the wry, bittersweet humor in (almost) all situations--whether it's becoming radioactive during a thyroid cancer treatment, getting fired from her volunteer work, or struggling to find her identity outside of motherhood. *Aren't You Forgetting Someone?* speaks to those of us who lament the invisibility of the middle-aged woman, but also revel in the unexpected delights of newfound freedom to do whatever the hell we want while no one is looking.

"Marketing has entered a new era of rapid advance. Those unwilling to experiment with new combinations of traditional and internet marketing will be left behind." -Chris Trimble, Adjunct Associate Professor of Business Administration, Tuck School of Business at Dartmouth and Coauthor, *Ten Rules for Strategic Innovators: From Idea to Execution*

"It's no secret that business has been changing dramatically over the last decade. To succeed in this rapidly changing environment, businesses must adapt their marketing strategies accordingly-The New Language of Marketing 2.0 provides practical, proven, and prescient tools to do exactly that." -Dr. Steve Moxey, Research Fellow, High-Tech Marketing, Manchester Business School

"Most U.S. marketers mistakenly think 'going global' is just a matter of translating your promotional materials into different languages and widening your media buys. Packed with real-life examples, this new book amply demonstrates that successful global marketing is actually all about local marketing. Learn how to give a local spin within each regional marketplace for global success." -Anne Holland, Founder, MarketingSherpa Inc

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first "immortal" human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her "immortality" until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta's daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn't her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.
