'To come back and win the Masters after all the highs and lows is a testament to excellence, grit and determination' BARACK OBAMA In 1997, Tiger Woods was already among the most watched and closely examined athletes in history. But it wasn't until the Masters Tournament that Tiger Woods's career would definitively change for ever. Tiger Woods, then only 21, won the Masters by a historic 12 shots, which remains the widest margin of victory in the tournament's history, making it arguably among the most seminal events in golf. He was the first African-American/Asian player to win the Masters, and this at the Augusta National Golf Club, perhaps the most exclusive club in the world, and one that had in 1990 admitted its first black member. More than twenty years after his first historic win, Tiger Woods explores his life with the game, with the Masters tournament itself, about how golf has changed over the past twenty years, and what it was like winning such an event. Woods will also open up about his relationship with father Earl Woods, dispelling previous misconceptions, and will candidly reveal many never-before-heard stories. Written by one of the game's all-time greats, this book will provide keen insight on the Masters then and now as well as on the sport itself. 'Greatness like no other' SERENA WILLIAMS

The story of Tibet's notorious master of Buddhist sorcery-translated for the first time into English An essential sacred text of Tibetan Buddhism, The All-Pervading Melodious Drumbeat tells the wondrous story of Ra Lotsawa Dorjé Drak. Though he was canonised as a saint and a fully enlightened buddha, the eleventh-century Ra Lotsawa's life story presents a darker path than those taken by Siddhartha Gautama and Milarepa. Viewed by some as a murderous villain and by others as a liberator of human suffering, Ra Lotsawa used his formidable power and magical abilities to defeat his rivals, accumulate wealth, and amass a devoted following. His life offers a rare view into the often overlooked roles of magic and sorcery in the Buddhist tradition. Despite this sinister legacy, his fame also rests on an illustrious career as a translator of Buddhist scriptures, through which he helped spark a renaissance of Buddhism in Tibet. This spirited new translation gives readers in English their first opportunity to encounter one of the most colorful and memorable figures in Tibetan Buddhist history. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

In A Pedagogy of Creation: Teaching Students to Communicate through Music, Robert Kaddouch discusses his system of musical pedagogy which approaches the act of creation as an act of communication, coining the process of creating music as an act of "conductivity." Kaddouch argues teaching music requires teaching students to communicate through their music, and defines four objectives teachers must adopt in order to understand their students and help them connect and conduct through the music they create.

"We, his friends, never knew if it was suicide or not but the reality was Tor [Norwegian journalist Torgeir Norling], who had shared so many dangers, hardships and fear, with us was gone. Tor was a journalist's journalist. I had covered East Timor with him in the late nineties. Like me he had gone on to cover Iraq, Afghanistan, Aceh, Sri Lanka and Burma. The conflicts that dominated our generation of journalists. There were not many of us doing that over and over again ..." The working title of this memoir by celebrated Australian war correspondent John Martinus was Endless Jihad: the future of these recent wars stretches far beyond sight. We know they will bear hard on us and on generations to come, but attention wanders and fresh copy from the battlefield is too often 'lost' ...

Next Time You're Dead, Expect Big Changes in the Afterlife As the Underworld Gets Its First Fashion Makeover in Millennia For three months in late 2043 an expedition of eight people (most of them alive) entered the afterlife on a special assignment to come up with ways to improve it. They were commissioned by the Lord of Death himself, some call him Hades, and joined by a uniquely qualified spirit who knew that landscape well, the famous magus known as Merlin. It turns out he's served as the top Underworld guide to many cultures since death began, and he wrote The Tibetan Book of the Dead about how they do things there in the Bardo. Their job was to come up with ways to make death and the afterlife experience easier. Nothing there was working right anymore, nobody understood the place, people were getting lost and confused, complaints were mounting, and all this was slowing up Earth's progress and the daytime life of living humans. The team included Blaise, a mysterious wisecracker who spends a lot of his time off-planet, mostly in the Pleiades; Edward, a sensible Boston book editor; Frederick, once a mythology professor but now a freelance Gnostic; Philomena, his wife who ascended into a Light body ten years earlier; Matthew, a reclusive meditator who consorts with Thunderbirds; Pipaluk, a very old shaman from Greenland; Tommy, teenager who died 20 years ago and now knows the Land of the Dead firsthand; and Merlin, explainer of Mysteries and everyone's favorite afterlife guide. Nothing is exempt from their Bardo retrofit. No job is safe; no way of doing things is secure. Everything about the afterlife will change. Next time you're there, expect to remember more, stay awake longer, and not take all those strange spirits accosting you seriously. Who knows? You might even like it.

More than thirty celebrities, including Samuel L. Jackson, Yogi Berra, Celine Dion, and Matthew McConaughey reveal their favorite courses, worst and best scores, most embarrassing moments, and how each finds time to indulge their passion.
